Profile

A hard-working, self-motivated individual with 7 years experience in education. Excellent problem solving skills underpinned by a background in design and interactive media. Globally intelligent and culturally sensitive.

Currently seeking a challenging new position to apply recent studies in marketing and social media.

Skills

- Creative problem solver with first-rate organisational and planning skills
- Conversational Japanese language ability
- Qualified graphic and web designer and developer (html, css, php)
- Proficient in MS Office and the Adobe Creative Suite

Experience

Japan Market Expansion Competition **2012 - 2013** Tokyo, Japan

A training program and competition for up-and-coming executives commonly referred to as a mini MBA. As a participant I accomplished the following:

- Demonstrated a solid understanding of lecture series contents; project management, market research, accounting, business plan writing
- Applied learning to team project for a real-world client, maintaining an excellent client consultant relationship throughout
- Produced an award winning business plan for a Tokyo-based non-profit organisation positioning to expand nationwide

Assistant Language Teacher **2010 - 2013** Shizuoka City Board of Education, Japan

As a teacher in junior high and elementary schools, my achievements were:

- Developed a curriculum to foster student's creativity and English language confidence
- Maintained excellent working relationship with colleagues, participating in regular team meetings
- Operated fast and efficiently to tight deadlines
- Supervised and led regular teacher training workshops
